

## Ultra-Micro DispoDIALYZER™ - Samples from 1µl to 5µl

### Ultra-Micro DispoDIALYZER

The 1µl to 5µl Ultra-Micro DispoDIALYZER is a unique disposable DIALYZER for the dialysis of very small samples. The entire dialysis unit is small enough so that dialysis can be carried out in a microcentrifuge tube. Sample recovery is quick and easy with almost 100% of the sample recovered after only a short centrifugation step.

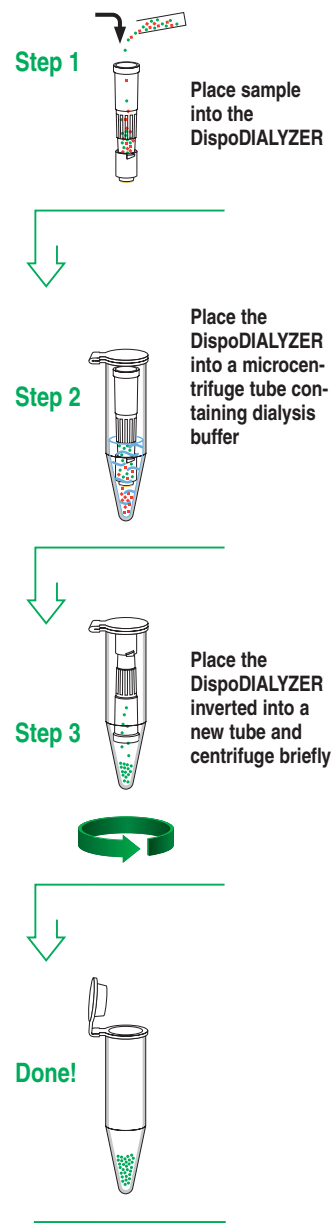

#### Advantages:

- Micro-volume dialysis
- Economical
- Easy to use
- Leak-proof
- Low protein binding
- High sample recovery
- Rapid dialysis/purification

#### Applications:

- Exchange of buffers
- Removal of detergents
- Concentration of samples
- HPLC, HPCE
- Purification of proteins, DNA and RNA
- Removal of excess radiolabel or PCR-primers
- GC, GC-MS, NMR

#### How to Use: Ultra-Micro DispoDIALYZER™

#### Ultra-Micro DispoDIALYZERS: Ordering Information

Membrane MWCO (Daltons)	Qty. of 25		Qty. of 50		Qty. of 100	
	SDIF001UJ	\$	SDIF001UK	\$	SDIF001UM	\$
100	SDIF001UJ	114.00	SDIF001UK	181.00	SDIF001UM	332.00
500	SDIF005UJ	114.00	SDIF005UK	181.00	SDIF005UM	332.00
1,000	SDIF010UJ	114.00	SDIF010UK	181.00	SDIF010UM	332.00
2,000	SDIF020UJ	114.00	SDIF020UK	181.00	SDIF020UM	332.00
5,000	SDIF050UJ	114.00	SDIF050UK	181.00	SDIF050UM	332.00
10,000	SDIF100UJ	114.00	SDIF100UK	181.00	SDIF100UM	332.00
25,000	SDIF250UJ	114.00	SDIF250UK	181.00	SDIF250UM	332.00
50,000	SDIF500UJ	114.00	SDIF500UK	181.00	SDIF500UM	332.00
